SECOND PRELIMINARY AMENDMENT

Dear Sir:

Please amend the above-identified application as follows:

In the Claims:

Please cancel Claims 31 and 32.

Please add the following new Claims:

33. (New) A stent in the form of a generally tubular structure having a circumference about the longitudinal axis, the stent comprising:

a plurality of circumferential sets of strut members that extend in a generally, ring-like pattern about the stent's circumference; and

a plurality of flexible links each having a distal end and a proximal end and a line joining the distal end and the proximal end being generally parallel to the stent's longitudinal axis, each flexible link
